COMMENTS FROM THE OFFICE OF THE TOWN MANAGER

Specifications will be presented to the board of selectmen at their meeting Monday night for a police car and highway truck. When approved, bid offers will be sent to interested dealers. As delivery dates are so uncertain we are especially anxious to have a truck on order to be sure we receive it in time to transfer the mounted equipment before another winter. Also we like to use a new vehicle for awhile in warmer weather before we start plowing with it.

Lester Witter has started work on the Common replacing Lucius McAllister, who is unable to continue his services this year due to illness in the family. Mr. Witter will also maintain the Park, Steam Mill Cemetery, and the Flat Road Cemetery.

All the work we have, both on roads and in the cemeteries and parks, is very slow due to the continued wet and cold weather.

There have been several express displeasure at the cutting of trees on the Town Farm and leaving the brush in sight of the road. We are going to clear it up as soon as we can get in there. We knew the trees were dying so we anticipated an unsightly situation regardless if we cut them or let them die naturally.

SCHOOL DIRECTORS HOLD MEETING AT TELSTAR MONDAY

Staff Members Named for 1970-71

The board of directors of S. A. D. 44 accepted the resignations of four members of the instruction staff at their regular meeting Monday evening at Telstar Regional High School.

The resignations of Mrs. Joan Brooks, special education teacher at Telstar; Leonard Brooks, elementary guidance counselor; and Mrs. Judy Brooks, grade 2, Woodstock, were accepted, effective at the end of the school year. Also accepted was the resignation of Craig Davis, member of the Telstar English department, effective March 30.

The board granted use of the Telstar auditorium to Mrs. Susan Farrar for rehearsals and performances of the annual recital presented by her dance pupils.

Keith Cunningham, Telstar principal, and Tim Lavalley, head of the Telstar physical education department, outlined an intramural sports program planned for the seventh and eighth grades next year. The directors endorsed the plans.

Reporting for the curriculum committee, Mrs. Joan Wiese of Bethel, stated that the committee had held a meeting with the elementary supervisor and supervising principals. Meetings are planned with instructors of kindergarten through grade three of the district, and with teachers of grades four through six. It is also hoped that a meeting can be held with the principal and department heads of the high school.

Donald Stecher of Bethel, chairman of the evaluation committee, reported for his group that was authorized in February to study the position of superintendent, administrative assistant, and supervisor of buildings, grounds and transportation, with the possibility of the employment of a business manager. Suggestions by the committee were: to make no change in buildings, grounds and transportation at the present time, to wait until a new superintendent is hired before a decision is made concerning a business manager; and to assign an elementary principal's position in conjunction with the post of elementary supervisor. The directors voted approval of the two initial recommendations, with further reports due on the elementary supervisor/administrative assistant at the May 4 meeting.

Mr. Stecher requested that the board expand the scope of the committee to include other positions in the district. The board decided not to increase the committee's duties. Supt. Ralph Ryder suggested the possibility of an evaluation by the State School Boards Assn. and/or the Maine Teachers Assn. He is to make inquiries of this possibility.

Eddie Snyder of Andover, of the negotiating committee distributed copies of proposals made to non-teaching personnel. The proposals are slated to be discussed at the next board meeting.

Board Chairman Richard Melville of Greenwood reported that later.

WOODSTOCK ELEMENTARY
SCHOOL NEWS
We are happy to report that for
two days this past week we had 100
per cent attendance in our school.

Something interesting is going on
all the time. A recent project of
Grade 4 was the day they made but-
ter in the old fashioned churn and
served it to the students and staff.
It was very successful and very fas-
cinating.

Mrs. Epper's Spring Concert date
is Friday, May 1. Try not to miss
this annual presentation. Mrs. Epper
does a most commendable job
planning, directing and presenting
this program with the children of
grades five and six of the District
Plan now to attend. It is being pre-
sented in the Telstar Auditorium.

We also wish to take this oppor-
tunity to thank all the volunteers who
are devoting their personal time to
drive some of these children to the
various rehearsals. It is much ap-
preciated.

Grade 4 again this year were
guests last Saturday of the Girls
for their annual Circus held in Lewiston.
Twenty students from our
school, with their teacher, Mrs. Bill-
ings, and the chaperones, Mrs. Jane
Mills and Mrs. Gloria Roberts, at-
tended. On their return trip they
had lunch at Ben's Restaurant in
South Paris.

School is now closed for a week
of vacation, resuming again on Mon-
day, April 27.

SCIENCE PROGRAM HELD AT TELSTAR APRIL 16

On April 16, a Physical Science and Physical Science Teachers Association Program was held at Telstar Regional High School. The program began with a coffee hour in the cafeteria, followed by a tour of Telstar facilities. After a business meeting in the Lecture Hall, a smorgasbord dinner was held in the cafeteria for 33 persons, compliments of Holt, Rinehart, and Winston, Inc., Publishers.

The program was extremely well received, and the performance by Telstar instructors and students was outstanding. An outline of the program presented was as follows:

The evening program began at 7 p. m. in the Lecture Hall with a brief introductory discussion. Following this, five areas were available for guests to visit, as follows: Lecture Hall, a teacher-training film made by Mr. Fiske for WGBH-TV, Boston; Room 100, student discussions; Library, student demonstrations, Audio Visual Exhibit, Book Display; Reading Lab, Polaroid photography; Physics Lab, two multimedia laboratory sequences.

Both Timothy Kersey and James Fiske attended summer school in order to teach this newest science course, Telstar is one of two schools in Maine teaching a physics course which considers science in the total human effort, not as an isolated body of knowledge. Enrollment in the physics program has increased 200% this past year, primarily as a result of the nature of the physics course. Mr. Kersey will be attending Harvard this summer in order to teach teachers this new program. Mr. Fiske will be teaching high school principals at the University of New Hampshire this summer.

Committee, the club would like to enter a float and possibly a game booth.

Discussion was held about possibly raising the price of membership to \$2 for the 1970-71 season.

The club's first meeting of the 1970-71 season will be held in September with the time and place to be announced. Thirty-five took part in the season's final meeting. It was reported that the Snow Twisters had 163 members enrolled this year.

It was voted to have the annual summer picnic in August, place and date to be announced later. This year instead of the traditional steak feed, it was decided to have a bring your own picnic supper with the club furnishing the soft drinks.

Linda Gilbert was chosen as Girls' State delegate to be sponsored by the Snow Twisters.

If asked by the Mollycoddle Bazaar

Two visitors to the Science Program at Telstar Regional High School last Thursday evening (on the left), are shown with Telstar students, Dwight York, Eric Henley and Brenda Tibbets.

WOODSTOCK

Seventh-day Adventist Church

The church school will reopen on April 20 after a week's vacation.

Mr. and Mrs. Timothy Joy, the Church School teachers accompanied the three eighth graders, Erion Hadley, Jr., Kevin Roberts and Beverly Verrill, to Florida on a sight seeing class trip during their vacation.

April 25 is Education Day in Adventist Churches. On that day educational standards of the Christian schools will be enlarged upon. Children from such schools should make better citizens because moral integrity, tolerance and love are instilled in the mind of the growing child and no bones are made about prayer and worship of God. There are 612 Adventist elementary schools and 81 secondary schools in North America.

Seventh-day Adventists finance their schools entirely without government aid. They stand behind the men who wrote our constitution and provided that the government should in no way support the propagation of religion. Although this is an expensive proposition, it is believed that a child's education must not only prepare him to be a conscientious citizen but prepare him to make decisions on an eternal basis.
